

ABOUT US

Tenuta Montemagno lies in gently-rolling hills on the 45th parallel, a latitude that has always been known, right from the earliest centuries, for high-quality wine production. The vineyards' South-West aspect, our particular climate and clay limestone soils, vineyard operations carried out exclusively by hand, and modern winemaking technology ensure the production of world-class wines, ambassadors to the world of the best of Italy, Piedmont and Monferrato.
